Fingertip Pulse Oximeters

Hopkins® Complete Line of Fingertip Pulse Oximeters

Innovative • Reliable • Affordable

Pulse Oximetry Saves Lives

Pulse oximetry is an effective diagnostic tool in neonatal care, primary care and in home health settings.

Important Screening for Congenital Heart Defects (CHDs) in Newborns

- According to recent data from the CDC, 30% of infant deaths due to birth defects in the US are attributed to congenital heart defects. (CDC 2012)
- Over 7,000 babies (or 18 of every 10,000) are born in the US every year with one of seven critical congenital heart defects (CCHDs) and nearly 300 of those babies will be sent home with their heart defect undiagnosed. (CDC 2012)

Pulse oximetry is an effective tool in screening for CCHDs and can potentially detect the presence of a CCHD without the presence of other symptoms. Early detection is critical in possibly finding a treatment regimen or procedure that could prevent death or disability.

Managing Acute and Chronic Respiratory Diseases Such as Asthma & COPD

- Pulse oximetry is an important complement to spirometry in the assessment of Chronic Obstructive Pulmonary Disease (COPD). A pulse oximeter is an excellent tool to monitor for instances of short-term respiratory compromise in COPD patients.
- Pulse oximeters can also be used to monitor the immediate effectiveness of treatments for Asthma sufferers, especially children with severe and acute wheezing.

In recent years, pulse oximeters have become an effective diagnostic tool in the successful management of COPD, Asthma, and other acute respiratory disorders. While, pulse oximetry can be a useful aid in clinical diagnosis and assessment, it must also be accompanied by regular physical examinations as it is not sufficient for diagnosis by itself.

Pulse Oximetry in the Home

Some basic principles of effective pulse oximetry at home

- Attach the pulse oximeter to your finger and check the SpO2 percentage on the display screen. Most pulse oximeters will also display your pulse rate on the screen.
- Determine the appropriate SpO2 targets with your doctor. Generally, it is advisable to keep your oxygen saturation level above 92%.

It is increasingly common for individuals to purchase and use pulse oximeters in their homes as an integral part of their personal healthcare management. COPD and CHD patients often find pulse oximeters very helpful in monitoring supplemental oxygen usage and for ensuring proper SpO2 saturation during activity or light exercise.

It is important to speak with a doctor about the proper techniques for using pulse oximeters at home.

• Accurate
• High Quality
• 3 Year Warranty
**Hopkins® The Wave™ Pulse Oximeter**

**Item # 594029**

The slim and durable design of the Hopkins® Wave Pulse Oximeter offers a comfortable fit and water-resistance.

| Item # 594029 | Screen: | 2-Color OLED |
| | Display: | 4 Rotating Views |
| | Auto On/Off: | Yes |
| | Alarm: | Preset for Pulse & SpO₂ |
| | Perfusion Index: | Percentage & Waveform Trend |
| | Warranty: | 3 Year |
| | Accuracy: | ± 2% 75 to 100% SpO₂ |
| | Power Source: | 2 AAA Batteries Included |

Available in 5 Colors!

- Pink
- Mint
- Berry
- Sky
- Cobalt

---

**Hopkins® Fingertip Pulse Ox PI**

**Item # 594027**

The Hopkins® Fingertip Pulse Ox PI features a rotating view display that allows either the patient or the caregiver to view the screen from all four angles.

| Item # 594027 | Screen: | 4-Color OLED |
| | Display: | 4 Rotating Views |
| | Auto On/Off: | Yes |
| | Alarm: | Preset for Pulse & SpO₂ |
| | Perfusion Index: | Percentage & Waveform Trend |
| | Warranty: | 3 Year |
| | Accuracy: | ± 2% 75 to 100% SpO₂ |
| | Power Source: | 2 AAA Batteries Included |

**Hopkins® Newborn & Mom Pulse Ox Kit**

**Item # 716266**

This two-in-one pulse oximeter allows the caregiver to monitor both neonatal and adult patients with the same product, accurately and cost-effectively. The kit includes: the pulse ox, a neonatal Y-probe, 10 probe wraps, 10 alcohol prep pads, and a royal blue nylon zippered carry case.

| Item # 716266 | Screen: | 4-Color OLED |
| | Display: | 4 Rotating Views |
| | Auto On/Off: | Yes |
| | Alarm: | Preset for Pulse & SpO₂ |
| | Perfusion Index: | Percentage & Waveform Trend |
| | Warranty: | 3 Year |
| | Accuracy: | ± 2% 75 to 100% SpO₂ |
| | Power Source: | 2 AAA Batteries Included |

*All Kit components are available separately for refills.

*Note: This oximeter is intended for vital sign spot check use only and is not designed for overnight or continuous use.

**Hopkins® Pediatric Pulse Oximeter**

**Item # 594023**

Specially designed for accurate readings on the smallest fingers, the Slim Pulse is perfect for pedi- atric patients or for very small or frail adults with finger diameters of 8 to 16mm.

| Item # 594023 | Screen: | 4-Color OLED |
| | Display: | 4 Rotating Views |
| | Auto On/Off: | Yes |
| | Alarm: | Preset for Pulse & SpO₂ |
| | Perfusion Index: | Percentage & Waveform Trend |
| | Warranty: | 3 Year |
| | Accuracy: | ± 2% 75 to 100% SpO₂ |
| | Power Source: | 2 AAA Batteries Included |

**Hopkins® Fingertip Pulse Oximeter**

**Item # 594025**

Designed with basic oximetry needs in mind, the Hopkins® Fingertip Pulse Oximeter is an accurate and cost effective solution to measure both pulse and SpO₂.

| Item # 594025 | Screen: | Monochrome LCD |
| | Display: | Faces Caregiver Only |
| | Auto On/Off: | Yes |
| | Alarm: | Preset for Pulse & SpO₂ |
| | Perfusion Index: | Percentage Only |
| | Warranty: | 3 Year |
| | Accuracy: | ± 2% 75 to 100% SpO₂ |
| | Power Source: | 2 AAA Batteries Included |

**Hopkins® Pulse Ox Carrying Cases**

**Protective Pulse Ox Case**

**Item # 539950**

This padded case features a belt clip and an elastic bungee cord safety clip that attaches to your pulse ox for added protection.

**Pulse Ox Sleeve**

**Item # 539940**

This slim and lightweight case features a belt loop and a small top D-ring.

*All Kit components are available separately for refills.*
### Hopkins™ Fingertip Pulse Oximeter

- **Item #** 594025
- **List:** $94.95  
  **Sale:** $89.95
- **Colors Available:** Mint, Berry, Sky, Cobalt & Pink
- **Power Source:** 2 AAA Batteries Included
- **Accuracy:** ± 2% 75 to 100% Sp02
- **Warranty:** 3 Year
- **Display:** 4-Color OLED, 4 Rotating Views
- **Auto On/Off:** Yes
- **Alarm:** Preset for Pulse & Sp02
- **Perfusion Index:** Percentage and Waveform Trend
- **Screen:** 4-Color OLED
- **Housing Color:** Two-Tone Gray

### Hopkins® The Wave™ Pulse Oximeter

- **Item #** 594029
- **List:** $135.95  
  **Sale:** $129.95
- **Power Source:** 2 AAA Batteries Included
- **Accuracy:** ± 2% 75 to 100% Sp02
- **Warranty:** 3 Year
- **Display:** 2-Color OLED, 4 Rotating Views
- **Auto On/Off:** Yes
- **Alarm:** Preset for Pulse & Sp02
- **Perfusion Index:** Percentage Only
- **Screen:** Monochrome LCD
- **Housing Color:** Dark Yellow

### Hopkins® Fingertip Pulse Oximeter PI

- **Item #** 594027
- **List:** $159.95  
  **Sale:** $154.95
- **Power Source:** 2 AAA Batteries Included
- **Accuracy:** 2% 75 to 100% Sp02
- **Warranty:** 3 Year
- **Display:** 2-Color OLED, 4 Rotating Views
- **Auto On/Off:** Yes
- **Alarm:** Yes
- **Perfusion Index:** Percentage Only
- **Screen:** Monochrome LCD
- **Housing Color:** Black

### Hopkins® Pediatric Pulse Oximeter

- **Item #** 594023
- **List:** $159.95  
  **Sale:** $154.95
- **Power Source:** 2 AAA Batteries Included
- **Accuracy:** 2% 75 to 100% Sp02
- **Warranty:** 3 Year
